NORTHERN NEVADA EQUIPMENT REPAIR LLC

UEI: M6PSDJN4JBU5

CAGE: 11BM6

COMPANY OVERVIEW

Northern Nevada Equipment Repair LLC delivers dealership-level expertise without the dealership price. Our mobile heavy equipment service specializes in diagnostics, troubleshooting, maintenance, and repair for mining, construction, agriculture, and municipal clients.

With over 28 years as a top-tier Caterpillar Field Service Technician, our lead mechanic began his career painting engine blocks, working his way through wheel groups, components, electronics, and every system that makes heavy equipment work. This hands-on journey built unmatched skill in diagnosing, repairing, and rebuilding – not just for CAT machinery, but also for CASE, John Deere, and other major equipment brands.

Our independent, mobile approach means clients receive fast, reliable, on-site service directly from the expert performing the repair – wherever the equipment is located.

PAST PERFORMANCE

- **Rebuild of CAT D8T Bulldozer:** Machine was deemed beyond repair by another service provider, we restored to full operational condition.
- Restoration of fire-damaged backhoe for an agricultural client, saving thousands in replacement costs and returning critical equipment to service.

CORE COMPETENCIES

- **Dealership-Level Expertise** – Over 28 years as a Caterpillar Field Service Technician, progressing from hands-on shop work to top-tier field diagnostics and repair.
- **Comprehensive Diagnostics** – Advanced troubleshooting for hydraulics, powertrains, electronics, and mechanical systems on large-scale heavy equipment.
- **Multi-Brand Proficiency** – Skilled in CAT, CASE, John Deere, Komatsu, and other major equipment brands.
- **Field Repairs for All Conditions** – On-site service for mining, construction, agriculture, and municipal equipment – from excavators and dozers to skid steers and wheel loaders.
- **Track and Undercarriage Work** – Specialized in repair and replacement of track systems and undercarriage components.
- **Component-Level Repairs** – Rebuilds and repairs of engines, transmissions, final drives, wheel groups, and hydraulics.
- **Rapid Response, Minimal Downtime** – Mobile service truck equipped to handle diagnostics and repairs in the field, reducing costly equipment transport and downtime.
- **Independent Service, Competitive Rates** – Dealership training and quality without the dealership markup

DIFFERENTIATORS

- **28 Years of Hands-On Expertise** – A proven track record in heavy equipment service, built through decades of dealership-level experience and in-the-field problem solving.
- **Consistently Done Right the First Time** – Work completed to exacting standards, with zero reworks in nearly three decades.
- **Independent & Mobile** – On-site service without dealership overhead, upselling, or unnecessary delays – direct access to the expert performing the repair.
- **Straightforward & Transparent** – Clear estimates, open communication, and an unwavering commitment to doing what's right for the customer.
- **Specialized Problem Solving** – Known for successfully tackling complex, misdiagnosed, or abandoned repairs others could not resolve

TARGET MARKET

- **Mining Operations** – Surface and underground sites needing rapid, on-site diagnostics, repairs, and component rebuilds to minimize costly downtime.
- **Construction Companies** – Firms managing large fleets of heavy machinery, including excavators, dozers, loaders, and track equipment.
- **Agricultural Operations** – Farms and ranches using tractors, loaders, skid steers, and other large-scale equipment critical to daily operations.
- **Municipal & Government Fleets** – City, county, and state agencies requiring dependable heavy equipment service partners for road, infrastructure, and public works projects.
- **Industrial & Material Handling Facilities** – Operations using forklifts, telehandlers, and other large materials-handling equipment.
- **Private Landowners & Developers** – Owners and developers operating or managing heavy equipment for property improvement or land development projects.
- **Equipment Rental Companies** – Businesses needing reliable service and repairs for leased or rented heavy equipment in the field.
